PROFESSIONAL EXPERIENCE

Arabia Insurance Cooperative Company

Cybersecurity Senior Specialist, Jul 2025 – Present

- Lead cybersecurity governance, risk, and compliance activities within a regulated environment, aligning security practices with SAMA CSF, NCA ECC, PDPL, and Insurance Authority expectations.
- Conduct vulnerability assessments, risk analysis, system security reviews, and remediation tracking across infrastructure, applications, and business-critical systems.
- Develop cybersecurity policies, committee materials, and regulatory documentation to strengthen audit readiness and executive reporting.
- Support security reviews, risk treatment, awareness initiatives, and practical control implementation across business and technology functions.

Mutakamela Insurance Company, formerly Allianz Saudi Fransi

Cybersecurity Supervisor, Jul 2024 – Jul 2025

- Served as Interim Cybersecurity and Data Management Manager, ensuring operational continuity and advancing strategic cybersecurity initiatives during a leadership transition.
- Led cybersecurity and data management governance activities, including framework adoption, regulatory compliance, risk assessments, and remediation planning.
- Managed vulnerability reduction efforts, security risk reporting, and cross-functional follow-up with technology and business stakeholders.
- Collaborated with leadership to align security priorities with business objectives and strengthen organizational cyber resilience.

Network and Security Engineer, Jan 2022 – Jun 2024

- Designed, implemented, and maintained secure infrastructure architectures and access controls, supporting business operations and remote workforce requirements.
- Supported vulnerability scanning, patch management, and remediation activities to reduce security exposure across enterprise environments.
- Monitored network and security infrastructure performance, resolved complex issues, and enhanced availability, resilience, and security posture.

Senior IT Support, Jan 2017 – Jan 2022

- Managed advanced IT support operations, endpoint security, patch deployment, and system hardening across enterprise workstations and infrastructure services.
- Supported infrastructure projects by contributing technical expertise in system reliability, endpoint protection, and user support enhancement.

IT Support, Oct 2014 – Dec 2016

- Delivered onsite and remote technical support, resolving workstation, network, and application issues to maintain operational continuity.
- Administered WSUS and Symantec Endpoint Protection Manager to support endpoint security, and secure baseline requirements.

EDUCATION

Bachelor in Project Management

Midocean University, Sep 2024

Diploma in Computer and Information Technology

Jubail Industrial College, Jun 2014
